## MyCurriculum Crack Download X64

MyCurriculum is a user-friendly application that can assist you in writing your resume (or curriculum vitae), helping you increase your chances of finding a job. The program enables you to create a new CV or open an existing one to refine it. You can enter a wide array of data about yourself in each of the existing sections. As such, in the 'Civil Information' tab you can enter your complete name, address, date of birth, means of contacting you (email address, telephone number, website), or even your digital signature. The 'Education – Degrees' section allows you to add the studies you underwent, the educational institutions you graduated from or are currently pursuing, and other relevant details about them. In the 'Skills' tab, you can add the qualities that you consider will make you stand out; you can mention work, functional and human abilities which correspond to the job description that you are applying for. The 'Professional Experiences' section enables you to add the positions you occupied at your previous employments and their duration. In addition, the 'Languages' tab allows you to specify the foreign languages you speak as well as the knowledge level. Moreover, MyCurriculum also provides you with a section where you can reveal your personal hobbies, practiced sports or leisure activities. Here, you can also mention whether you have a driver's license and / or own a personal vehicle. Before printing the resume, you can select a template and preview it, to decide if there is anything you want to add or remove from its contents. Additionally, MyCurriculum can help you write your motivation letter, as well as assist you in creating and maintaining a contact list, so you can easily send your CV to possible employers. MyCurriculum is a great tool that you can use to write a complete job application, in order to enhance your prospects of getting employed. 123,368 downloads 1.0.0 2.0.0 MyCurriculum Oct 06, 2010 By Tee Corel Educational 1 Overview MyCurriculum is a user-friendly application that can assist you in writing your resume (or curriculum vitae), helping you increase your chances of finding a job.
